INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/US04/09828

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement						
1. Statement						
Novelty (N)	Claims 1-10 Claims NONE	YES NO				
Inventive Step (IS)	Claims 1-10 Claims NONE	YES				
Industrial Applicability (IA)	Claims 1-10 Claims NONE	YES NO				

2. Citations and Explanations (Rule 70.7)

Claims 1-6, 9, and 10 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the claimed bridge member for maintaining the orientation of the tube relative to the fitting during swaging, the bridge member being adhered to the tube and fitting during the swaging process.

Claims 7 and 8 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the claimed second end portion having the specifically recited first and second curved contact surfaces.

Claims 1-10 meet the criteria set out in PCT Article 33(4), and thus exhibit industrial applicability because the subject matter claimed can be made or used in industry.
